MODULAR CARPET

High Society

Imagine an escape to the glamorous world of Monte Carlo, where luxury knows no bounds. This was the inspiration for the design of our latest modular carpet collection, High Society. From the excitement in the toss of the dice in lavish, opulent casinos, to the serene contrast of the Mediterranean's coastal splendor, High Society celebrates the interplay of the grand style and elegance of Monte Carlo with the airy lightness of the French Riviera coastline. The High Society Collection is made up of three styles.

Musical, a choreography of fluid and harmonic spatters of color over dusky backgrounds. **Romantic**, designed with deeper splashes of tonal color that flicker across the pattern, creating a beautiful scattered mosaic motif. **Socialite** causes a stir with bursts of dramatic splashes of deep, neutral shades that flow and flutter across the pattern. Each style is available in 24" x 24" tiles, in 12 rich colorways.

Due to the unique visual characteristics of modular carpets, pattern repeats and pattern run-off seams may appear more noticeable than in broadloom carpets. Such visual characteristics do not constitute a manufacturing defect, and as such, should be considered when selecting modular carpet and its installation. These photographs are representations of the installation for this modular product. Your modular installation may look different than these photos depending upon individual tile placement, lighting and overall space layout, including furnishings. Final tile placement and the resulting visual is thus the customer’s, and not EF Contract’s, responsibility.
